THATS A BIG FKN THANKS TO THE UNITED STATES. YOU TOOK SADDAM OF POWER WITHOUT FKN THINKING WHAT OR WHO WOULD COME AFTER HIM, IF SADDAM WAS THERE WE WOULD NEVER HEAR ABOUT SOMETHING CALLED ISIS OR ANY OTHER GROUPS THAT CAME AFTER 2003. MORE INNOCENT IRAQIS DIE TODAY THAN WHEN SADDAM WAS IN POWER.

@Skidrow247 [1497398400]
Omg he's so full of shit

@darkregions [1497398400]
What a joke this guy is turning out to be! Funnier by the day! He wants to dry up ISIS's wealth sources... well any political youtube browser can explain to Donald Duck here that such a funding would most likely come from his darling (no not Israel the other one) Saudi Arabia... not Iraq.

@izzigogo [1497398400]
That is why he put Rex Tillerson, CEO of ExxonMobil as Secretary of State. ?? what is he planning??? Whatever the outcome, NOT good!

@RassBrass [1497398400]
Trump, a fucking brick wall when it comes to foreign relations. No fucking clue! He's planning to send more troops to the middle east, fine! Then he should send his sons first

this is the democracy of USA or Tyranny

@xoxrandomgirlxoxlol [1497398400]
"excuse me, there is no america.They are broken up into so many factions-" Because that's literally what your country is. A salad bowl of different cultures, ethnicities, faiths and political beliefs. There's nothing wrong with that. That's beautiful!

@xoxrandomgirlxoxlol [1497398400]
Your attitude is primitive in my opinion. Coexistence and tolerance are possible with the existence of intelligence and conscience. A melting pot calls for a uniform society, that's boring. "Shitty culture"? Do you mean to say every culture besides the american is "shit"? You are entitled to hold your own opinion, like everyone else. It only reflects on you.

@stairwaytoinfinityandbeyon293 [1728864000]

He's serious... he did mention rebuilding

@op3129 [1592092800]
@octagon7053 no he didn't. he said he'd give the oilfields to exxon to "rebuild" and then keep.

WHERE YOU AT TRUMP IM ABOUT TO BOMB YO DAUGHTER IF You're GONNA BOMB IRAQ!!!!!!!!!!!!!!!!

@STROBdotNET [1465862400]
If it was so easy it would have been done already. The problem is that they are hiding among totally innocent people like you and me. What is his plan to avoid killing innoncent? He also said elsewhere he wants to kill terrorist whole family... But what if their family have nothing to do with this? Do you have someone in your whole family that you politically disagree with? You want to have innoncent's blood on your hand then vote for Trump (real name DRUMPF by the way)...

@yohan.al2000 [1465862400]
Haha John oliver video on DONALD DRUMPF

@cubemoment9402 [1465862400]
Go TRUMP!

@morticin3838 [1465862400]
You know I heard all this garbage when Reagan ran for President, he was going to be a war monger , etc, none of that came true, but he was tough, and Mr Trump is being tough, you assholes keep doing it the weak way, we will continue to pay high oil prices, oh they are down now, but it's going back up, you think the military brass us just going to let him bomb , but he's got to be tough, I like him.

@NumeMoon [1465862400]
This is why I don't take Trump seriously: he thinks POTUS can do anything he wants. My brother is a US Navy officer, and I asked him a long time ago why we don't just bomb Afghanistan's poppy fields and Iraq's oil fiends, and he went right into how bad of an idea that would be. Seems there's this little thing called the Geneva Convention. Essentially, we'd lose ALL our allies, and the nations that police the world right now would start visiting US soil in the name of human rights. I'm not even sure POTUS could command the military to break NATO's laws. POTUS has lots of power, but not ALL the power. Trump is a dipshit. He seems to think the job of POTUS is a dictatorship.

@djt1785 [1497398400]
We should just pull out of the Geneva convention. We're never going to fight another traditional war against a nation-state actor ever again. It'll always be a diffuse enemy with pockets all over like ISIS. And terrorist animals like that are always going to torture and maim and target civilians.

The only reason to be in the Geneva Convention is to protect our own troops and our own civilians. But since the only enemies we'll ever fight are people that will never respect Geneva, there's no benefit to us from it.

Let's untie our hands and get nasty with our enemies. Literally just draw a ring around ISIS territory on a map, then send in our Air Force and bomb every single solitary inch inside that ring into smithereens. No one would ever pull this bullshit with America or the West generally ever again.

People say the survivors of such a brutal bombing will grow up to be tomorrow's terrorists ... easy solution: leave no survivors. Problem solved.

@NumeMoon [1497398400]
djt1785 So, you're pro-psychopathy. Got it.

@qzetu [1497398400]
You have absolutely no idea what the fuck you are talking about and neither does the person you got your info from. This country is already on record for admitting that (1) we have tortured people (2) that we have killed over 100 innocent people with American drones. That is coming officially from the white house. I can begin to tell you how many atrocities the US Government has committed and the Geneva convention has been ignored. The fact is, we can't bomb those fields because (1) criminals in our government are profiting from it (2) because it would anger the elites of the world. The US has over 500 bases through out the world. We spend more money on our military than any country in the world. We have protectorate country and influeall over the world. We are the police of the world. What Donald Trump is saying is very very simple. Take the oil and these terrorist organization can no longer fund themselves and will fizz out. The real issue isn't the oil it is the U S government which is actually funding ISIS. We already know for a fact, and if you are not aware of that I suggest you do the research.

@NumeMoon [1497398400]
qzetu I'm aware, but I also see two nuanced sides to this issue. Trump doesn't like diplomacy, and NEVER do I see even one Trumpeter suggesting diplomacy first. You think like the other Trumpeters... it's a madman's group think.

@qzetu [1497398400]
First of all, I have yet to give my support to Trump. Lately I have been following up on videos and such to find out if a lot of what is being said about him is true. I am finding that in almost every case it is either lies or he is being taken out of context. I am not trying to defend him, I am simply saying that he really isn't as bad as people say. I am sure he is considering"diplomacy." He tends to be very blunt about what he is saying and frankly most people aren't ready to hear it. Taking the oil from ISIS would indeed disable if not destroy them.

@NumeMoon [1497398400]
qzetu I think if you've been watching what Trump is saying, you can see by now why I made that assumption based on your comments. Also, I gotta add, you are literally talking about being on the Dark side of the Force. Literally. There is darkness inside you, I sense. Don't give in to your anger; please let me explain.

My brother is a USNA grad, and an officer in the US Navy. I asked him about the oil once, and he explained it really well using Star Wars. (He's an aviator, what would you expect?)

1) If we act like the terrorists (the Sith), our allies (the Jedi) will see us as terrorists. He used Iran as a real world example. The rest of the world would look at us the way they look at Iran, which wouldn't be very good for us or our treaties, etc, etc.

2) The US military likes the Geneva Convention. It keeps them safer than they would be in a world without it, and most of them know it. We cannot, for example, order our Marines to burn everyone in a village to force the rebels out of hiding. Our best military generals and admirals support the laws of the Geneva Convention. If the president orders them to do something illegal, they can refuse. It is in place so a tyrant can't take hold of our military. They are the ones fighting the wars. If their brass wants to follow the Geneva Convention, then we should respect that.

3) Most importantly: Why would you want to force a fellow citizen to commit crimes against humanity? You're ok with it as long as you don't have to be responsible for the massacre of more innocent lives than were ever lost to any terrorist group. You can't force our military to commit genocide and rape an entire nation by taking it's only major resource just to get to a smaller group. Deep down, you have to know this is NOT what our enlisted men and women signed on to do. They do NOT want a command like that. They won't even follow a command like that. How could you give an order of that magnitude to another human being to see through?

4) To look my brother in the eyes when he pointed this shit out, dude, I never want to have a talk like that with him again. I felt kind of ashamed. I didn't realize what I was suggesting.

@qzetu [1497398400]
+Nume Moon It is very obvious to me that you are ignorant & naive. In my first comment I already covered everything with regard to what our military thinks of the Geneva convention. We have been at war for over 50 years now. The conflict in the middle East has almost everything to do with our military. Millions of innocent people have died or suffered phycological or physical damage from us. I suggest you look up the article living under drones. What we are doing is chasing down what are supposed to be terrorist but in doing so we are (1) killing innocent people (2) subjecting millions of people to the possibility of dying for being in the wrong place. Do you realize the phycological impact that has on people? I am talking about one single example. There is also Iraq which we completely destroyed. We have been involving in almost every single conflict going back more than half a century and almost none if it has to do with protecting our liberties. Our military and government are guilty of major human right violations. The soldiers themselves are nothing but tools used to advance American imperialism and to profit for the corruption which has taken over the US GOVERNMENT.

As far as attacking these oil fields, I have not said once to you that I agree with that. There are always consequences when you do something. Trump is supposed to receive a intelligence briefing in the next day or so I then he can actually consider what a move like that would imply. He is absolutely right that taking oil from ISIS would hurt them. However, like I said already, he only needs to end US funding. What we have is a serious issue in that region which needs to be dealt with sooner or later so taking the oil may actually save lives. The fact is, it is easy to say you will do something, an another to do it. I am confident he understands that.

@NumeMoon [1497398400]
qzetu We will see.

@MusicHead480 [1465862400]

If you really listen...Trump really never answers the question/s. As do all the GOP candidates, they never answer the questions either. They simply make statements that sound good to most idiots.!!

@electroman982 [1465862400]
This discussion is hardly worth while considering Trump will never be President. And that is the simple answer....periods...

@jorgecarrillo2 [1465862400]

@pascal4511 [1465862400]

Gore me now but this man is first class and the U.S. and the UK have not had world , first class leaders for roughly 30years , hence the bloody mess .

@andrewkimball2925 [1465862400]

@50_cal56 [1592092800]
How did that work out?

@alexanderson9415 [1465862400]
Bombing won't work look at the Vietnam war if you want to win just send a shit load of ground troops in also that's Russia's oil so you do that well Russia gonna fuck you up good

@edwardwelch7986 [1465862400]
and all of the innocent people they hide amongst...what an idiot, his responses to questions are about as intelligent as a horoscope prediction..for the stupid..lol

@deafected [1465862400]
He's right and he is very wrong. There are already Western oil companies in Iraq. Oil is a major source of income for Isis, it's what sustains them. There should obviously be an arms embargo and go after the influx of military grade weapons and sanction those countries so they get their arms dealers to behave themselves.

@apy43 [1465862400]
haha..like what..ur gonna bomb the oil fields..god save US if this guy is president

@losteden [1465862400]

Trump2016

@quarleslawfirm [1465862400]
The problem is that people do not understand politics and neither does he. He cannot just go in and bomb Iraq. People are so full of hate right now and he is feeding it to them like candy. Research how the Government works and you will see, the President CANNOT just go bomb a county

@dannyquest828 [1465862400]
+Trish Quarles im sure about my comment before I sense some fuckery

@dannyquest828 [1465862400]
^ do you have any rational idea of how many innocent people around the world have been senselessly killed by Christian American hands, more then isis has killed and I would be more then happy to prove that statistic if your like, but honestly i would prefer if you just stand there with your head in your ass.

@festeezy [1465862400]
The imaginary Gods in the sky. Or is that just the religious nutbags schizophrenia. Either way, ALL religion is obsolete. ESPECIALLY 3rd world country religion.

@festeezy [1465862400]
Religious nuts need to learn self-progression & how to think for themselves, create their own morals & conjure their own thoughts ,instead of being schizos & following an obsolete thought (all religion)

@morticin3838 [1465862400]
+Trish Quarles I remember a quote from President Richard Nixon, he said that " The President of the United States can bomb any damn country he or she wants. And historians said he was correct, that's why in his oath , it says preserve, protect, and defend the Constitution of the United States. So a president can bomb , in the interest of protecting his country, however he still has to answer to Congress for his actions.

@quarleslawfirm [1465862400]
morticin Uh, wrong. The President cannot declare war without Congress's approval.

@morticin3838 [1465862400]
+Trish Quarles I didn't write "declare" I wrote "bomb" Presidents have bombed countries w/o Congress ok, Ronald Reagan bombed Libya and killed Khadafi son, a President as protector of this nation can bomb any damn nation he wants to, Richard Nixon was right, but He or she will have to answer to the people, which is Congress

@quarleslawfirm [1465862400]
morticin Agreed. My fault for not quoting Trump correctly. Trump has stated he would start a war and boycott with China and Itaq and not allow Muslims in our Country. All of what he cannot do. I apoplogize for miscommunicating

@quarleslawfirm [1465862400]
***** Comment to what? Your ignorant statement? Obama has done everything within his rights under the Constitution and either with the support of Congress or within his legal right to act without Congress's approval. Read the Constitution, learn how the government works, have some clue as to what you are talking about and then I will have a conversation with you. As for the coward comment; I am assuming that was a joke as stupidity has never scared me

@quarleslawfirm [1465862400]
***** I am an attorney with an umdergad degree in Criminal Justice and Political Science. I have not only read the Constitution, I have studied it, as well as the inner workings of the government. You, on the other hand, are clueless. Now, unless you have something constructive to say, aside from calling our President and myself names, I am done with this little man's banter

@darklightreaper1 [1465862400]
+Trish Quarles the U.S.A is one of the five countries with full power in the U.N so this plan can work

@AquaticAgis [1560470400]
An enemy country

@mocha706 [1465862400]
if to tell you any think you or world want to say loud it all records for law n goverment devil are make you do wrong truly

@mocha706 [1465862400]
oil are north west south eeast you need more than big bombs for oil companies first of all your making crime that hang to death only if you want to be free hit biggest valcon to feed ever buddy with out go hell comes at you

@Political522 [1465862400]
Yes, this is one dumb leader!
He complains over China and Mexico taking advantage of the U.S.
But he want to steal others wealth!

Good one!

@selfishcapitalist3523 [1623628800]
He's honest.

@susiesanford8846 [1465862400]
Cooper! I have never liked you! You mayncall yourself a journalist but I call you a jakyll!

@001SpecialAgent [1465862400]
I'm no military expert, but this don't sound so bad to me. I would like it brought up and discussed by people who are experts. Does anyone know if that's been done?

@andrewsmith2093 [1465862400]
holy crap if you american's can hear clearly he's wants to kill everybody there and steal the oil holy shit

@sniper6825 [1465862400]
Great idea no oil=no money=no weapons and mercenaries simple and effective. But for about those civilians who works on those oil rigs ?

@CannaHeaven [1465862400]
You're right, take the wealth out of Iraq and give it to the wealthiest 5 groups of people on the planet.... If you like his plan, then you're a fool

@selfishcapitalist3523 [1623628800]
Investors in those oil companies will get a slice of that wealth. What is stopping you from investing in Exxon?

@katushapolany9328 [1465862400]
Shut your big mouth trump , your just idiot

@kevinpiimauna8604 [1465862400]
If we actually help the people, we will see improvements. If we want to destroy isis, we can do it in a week. If we rain shit down from the sky blatantly.. Y'know. Whatever. 2 decades of it they've adapted to it. America wants to make enemies go ahead. Just honestly surprised that there aren't more terrorist attacks. They're literally all domestic.

@kevinpiimauna8604 [1465862400]
Oh and stop arming and funding israel! We can give the ypj scopes and oil and i guarantee you'll see improvements. Take care of their infrastructure and defense, they'll find guns and ammo

@kevinpiimauna8604 [1465862400]
The pesh aren't stupid enough to turn against us. They just want to rebuild, and begin a system that's more free. So did the fsa, but i think they're out of the picture

@kevinpiimauna8604 [1465862400]
Stupid fucking tactic. Stop killing civilians. Deploy sf and other advisors to iraq. Arm lightly. Arm ypj heavily. They'll win for sure. They have the drive

@xxfallenangelxx3102 [1465862400]
YES YES YES TRUMP IS RIGHT ON THE DOT!

@Alex-444x94 [1465862400]

“We’re keeping the oil, we have the oil, the oil is secure. We kept troops in Syria only for the oil.”
"Oil is secured. Our soldiers have left and are leaving Syria for other places ... what we are getting out of the deal, I simply say, THE OIL"

@shelffeather4473 [1465862400]

@SFCityKids [1465862400]
+Ivan Sugartail Im going to Canada

@IvanBunny [1465862400]
I agree with you. It's the HOW in how we deal with radical Islamist's that concern me. What did we gain by going into Iraq? Answer me that. We don't need another wild man in the White house. We need a serious intelligent person unfortunately none of this election cycle's candidates on either side has this set of qualities. I admire Mr. Trump for his personal success. But there is a difference between the board room and the war room.

@TimezUp23 [1465862400]
Trump just flat out told you the truth and you want to run? At least he is real. Isn't much different than what has already been going on. Duh

@cubemoment9402 [1465862400]

@ElectroslairBlogspot [1465862400]
+Ivan Sugartail I doubt your in the USA anyway. Trolls from other countries on a world wide YouTube channel always post like this in the comments. Just keep that in mind people while reading comments.

@loripip3285 [1465862400]
+Ivan Sugartail ....lol trump is awesome and if he is elected he will make America great again!! . there is a reason this man is a billionaire , and he knows what to do to get things done . he is so right on the mark to bomb the oil fields , this man is so smart !!!!!

@Do-Ditsu [1465862400]
He wants to take the oil from Iraq because Isis a group that was created by the US government....of course Iraq is broken up because the U.S. Government wants it that way they think the public is dumb

@jalexander1532 [1465862400]
This man will kill us all

@NorthviewVids [1465862400]
What the hell does Trump think he's going to bomb? Does he know where ISIS is hiding? NO - nobody does because they hide as civilians and have untold hidden bases of which the US has no clue about, they often masquerade as civilians. The current government has been trying to rid the world of ISIS, Al-Qaeda and other terrorist organisations for a long time but they cannot; because they are a hidden enemy. Trump has ABOSULUTELY NO CLUE about how to 'bring it' to these radical groups and anyone who thinks he does is seriously deluded...

@FunTimeGhz [1465862400]
A president like this is how a world war starts.

@fidgetyrock4420 [1465862400]
Na.. he wont, mess with russia. The only country in the world cabable of creating ww3

@markuspettersen8961 [1465862400]
+Fidgety Rock have you even thought about north korea?

@fidgetyrock4420 [1465862400]
Markus Pettersen naa not rly..
they are only caring about themselves..
russia is still the biggest adversary to usa.. and racial diversity will make russia become the empire they have always tried becoming..
too bad russia is WHITE! hahahaha..
racial diversity creates a HUGE halt in advancement in white peoples brain in usa.
russia actually created nuclear bomb only a couple years after isa..
if they are so smart they will win the empire war.

@derelictcontrarian7731 [1465862400]
Trumps answers are like what sports athletes say to reporters when they're losing "Uh, we just gotta do good. Put the ball in the net. Stay focused and win!"

@angelcolantuono527 [1465862400]
lmao I'm American born in this country the day the united states tries to steal oil from Iran I'll be joining the rest of the world in beating the shit out of this country.

@op3129 [1592092800]
pretty sure war crimes isn't about pc

@shaunshimizu4322 [1465862400]
Save our Troops, Save our Money and then make some after all it is done. Donald could not have said it any better. Everyone who is upset have NO idea what it's like to be a foot soldier on the Front Lines, No idea about about managing money and no idea of what the REAL world is like. We can't fight and support other countries when we have our own problems at home. We are not made of money and soon we will fall back into a recession if we don't fix our own problems soon. If anyone deserves to take that oil, it is America. If you have a problem with it, go breast feed in public

@thecoasterarmy7502 [1465862400]
Trump has earned such a bad reputation over the years with all the dumbass type things he's done. But let's get to the point. He's actually got a REALLY good point here. Keep the plan simple. This nation has gotten so worried in getting involved with complex plans to defeat ISIS, that we've been getting nowhere. Trump will simply bomb their oil fields. And he's right. Take away their wealth, and ISIS is gone. Simple. What has Obama done? Nothing. Trump could eventually stop ISIS.

@marcovia3218 [1465862400]
This guy is a piece, hahahha so freaking dumb !!! It's just like watching comedy, making a big of a deal on a mere 4% of the population blaming them for bad times, come on people if we start working and stop blaming maybe "America will be great again"

@dilshad2007 [1465862400]
do you want to finish isis put a man like Egypt sesi in turkey and isis well erased

@rickscarfia3835 [1465862400]
There is no Iraq . I'd bomb the hell out of them. Then get my buddies at Exxon to steal and control the oil fields? Is anybody hearing this? This is an insane madman. He could be the dumbest fool on earth. Is anyone serious about this clown. Or is this an elaborate joke? This forum clearly reveals the education level of the people writing comments. Most good, the rest is hard to believe.

@marginelouis6674 [1465862400]
Amen
Like seriously "I'll build a ring around them" ? Of how many soldiers per area being constantly bombarded with angry Iraqis

@patrickoriley8382 [1465862400]
He has my vote!!

@jackdavis8701 [1465862400]
i say america just bombs the whole middle east. that would solve the isis problem. and we wouldn't need airport security anymore =)

@Harvester35 [1465862400]
Amen brother been saying that for years. All the do there is murder and attack us. Time for them to go

@AnnBoylen [1465862400]
Best Trump quote; "You shoot a bullet in the air and they all run away and give up our equipment" LMMFAO. He's a master of slick comedy. I hate his guts but he's got some really sticky points that make sense. If he was not such a bigot and megalomaniacal narcissist. If this is what having $8 billion does to some people, then I'd be worst than Liberace and Trump combined.

@zeytunci1 [1465862400]
I agree, no one wants to go to wars and see innocent people die but when you have a group like this who already kills innocent people with every possible way imaginable then the one who doesnt act to protect those that are being killed is a fool to the max. Go Donald, you have my vote

@alanfrost75 [1465862400]
Right its going to be that simple... You just put a ring around them!

Wtf is wrong with this man?

@MsAtticonline [1465862400]
Hmmm.. Well, he has a point, the Iranians let these corrupt leaders control them rather than standing up for themselves. We waste our time and money on all of these inspections and try to negotiate but nothings happening. Also, they still haven't released our US prisoners.. We wouldn't be bombing the people but their oil fields.

@melvoncheds7141 [1465862400]
and this is a legitimate presidential candidate...

@tarfielarchelone2674 [1465862400]

Does he have any idea that he has no clue what he is talking about, or does he simply not care?? ... I don't believe in prophecies but if this guy gets elected I think it's fair to say the anti-Christ is finally here ... If people are dumb enough to eat Papa John's and Hardees they are probably dumb enough to vote for this turd, makes you think doesn't it. Thank God I live in a blue state

@nworder4life [1465862400]
The anti Christ is supposed to bring the world together as one nation.

@TraderJam1 [1465862400]
I agree with you Donald bomb the crap out of the oil fields and take away their wealth from those filthy murders.
And on the Mexico issue I remember the Mariel boat lift I am sure Fidel emptied his jail cells of thieves, mad people and murders (Scarface Tony Montana) but a lot of people were persecuted by Castro's regime and needed to escape Cuba The Mariel boat lift cant be compared with Mexicans crossing the border

@camelsintinycars [1465862400]
It is time we embrace our new deer leader and jobest president ever.
Also sexiest man alive, let's face it. Man, that hair!

@SECURESERVAR [1465862400]
As a lawful legal immigrant myself, I agree with Donald trump 100%. Truth hurts huh? He is absolutely right on about our open border lawless illegal immigration system! No country in the world allows lawless illegal system! Many have immigration system but they are legal system where you have to qualify to come here lawfully to live and work here lawfully. You have to go to your country's US CONSULATE for interview to qualify for VISA and have to pass financial and criminal back round checks. This is the path to legalization and the path to US citizenship or AMNESTY or immigration reform whatever you want to call it starts in your own country at the US CONSULATE! I am for compassion for all legal & undocumented immigrants but I am not for lawless open border and Amnesty system that is bankrupting our cities and states! Part of the reason why illegals come here ILLEGALLY is due to criminal back round and they will have their US visa denied. Many lawful legal immigrants and American citizens have been victims of illegal alien crimes. We don't have a nation if we don't stop illegal immigration! Yes to legal immigration, no to ILLEGAL IMMIGRATION!

@60krolex [1465862400]
Trump has my vote he is the strongest candidate we have to pick from someone who is a no bullshit kind of guy we need a real leader and trump is the man

@apaculus666 [1465862400]
He should send his own child to get that oil he keeps talking about.

@justincodybarrs [1465862400]

@greenmanbucket [1465862400]
A Republican's Republican

@propagandadetection2949 [1465862400]
Sounding a little reckless there Donald. Causing an ecological disaster as well as the human cost of such an attack should exclude such a scenario. Maybe Iraq isn't a unitary state due to all the divisions of over a decade of devestation at the hands of the us. For weapons of mass destruction that were never found. I think the Iraqi people should be left to figure out who is going to lead which part and why. Bring American troops home.

@cogen651 [1465862400]
Holy crap! Anderson is an idiot!

@chicagoelectricbicyc [1465862400]
Take the oil Donald !! Iraq owes us a lot of money.. You have my support and my vote !!

@كذا-ه7ظ [1623628800]
Why for destabilising the country for the theft of our oil? For the killing of over one million of us? For the displacement of 5 million for the puppet government which belongs to Iran who are causing a genocide in Iraq as we speak? For what do we owe you money exactly?

@franzb69 [1465862400]
with this at least i would agree on.

@athenaredrising [1465862400]
Is he a freaking dumbass? He would bomb the oil fields of another country instead of trying to come up with a stragedy to take them back from the enemy? What would happen to the Iraqi people afterwards? And then he goes on saying there are no Iraqi people because they are divided? No shit asshole...that happened in 2003 when the Us decided to invade Iraq for no reason and destabilized it. If Iraq still had a stabile government...Isis wouldn't have even gotten this big in Iraq. My Lord I seriously hope he doesn't become President. He is just another War-Loving Mongrel like Bush. D:

@chicagoelectricbicyc [1465862400]
Athena SuperHeldin Iraq owes us a lot of money Athena

@SuperElite27000000 [1465862400]
***** that was the 1991 gulf war dude.

@putinscat1208 [1465862400]
Athena SuperHeldin I do like the idea of giving the Kurds their own country, but the truth is, if you divide Iraq, then Saudi Arabia and Iran will play proxy war in the new countries forever. When Great Britain just decided to split India into modern India and Pakistan along religious lines, it was a pretty shitty thing to do.

@athenaredrising [1465862400]
***** No there really wasn't a good reason to invade Iraq in 2003. It was a pretty useless war which ended up bringing turmoil to that region and causing instability. Thousands of civilians died...and thousands of poor soldiers who thought they were fighting for a great and heroic cause. The whole Bush administration should be charged with war crimes!

@athenaredrising [1465862400]
Putins Cat I never talked about giving the curds their own country. I just said it was pretty pointless invading iraq in the first place. You can't just invade a country, just because you don't like how they run things. The Iraqi people didn't personally ask for invasion. Imagine how chaotic it would have been...if a country just came up...invaded the states and got rid of Congress, the president....and just the WHOLE government?! It would have been a disaster....and all the states would have probably divided.

@putinscat1208 [1465862400]
Athena SuperHeldin Where did my post go?

@putinscat1208 [1465862400]
***** It was a post 911 distraction led by that crazy bastard Chaney. People made money over our blood.

The theory was, it was too expensive to keep the no-fly zones forever. So, we spend trillions on war, and now we will probably have Gulf War III under another Bush.

@athenaredrising [1465862400]
Putins Cat Which post? I seriously didn't delete anything or marked it as spam? Your post is still there

@putinscat1208 [1465862400]
Athena SuperHeldin I had a good one, now it is missing.. :/

@athenaredrising [1465862400]
***** That was SUPPOSEDLY the reason why they invaded. You can't possibly go like 'YES THEY HAVE WMD!....completely destroys country and kills thousands...oh WOOPS well looks like they didn't have wmds.....oh well...let's just try to forget about it.

@putinscat1208 [1465862400]
Athena SuperHeldin"Gulf War III - The pursuit of more loot", starring Jeb Bush. Special appearance by G.W. And Dick Cheney as The Creature.

@athenaredrising [1465862400]
Putins Cat HAHAHAHAHAHAHAHHAAHHA That really is a good one XD...sadly true...sounds like something Jon Stweart would come up with. :D

@putinscat1208 [1465862400]
Athena SuperHeldin Sometimes I wonder if these guys are part of a religious cult, trying to make Armageddon happen. They have spilt more blood than ISIS.

@athenaredrising [1465862400]
Putins Cat Politics as a total is pretty dirty. You see all politicians pointing fingers at other people....when they are the worst. Destroying our world. :/ Pretty sad. We can't even trust our leaders.

@putinscat1208 [1465862400]
Athena SuperHeldin It's funny too. The republicans are usually the ones for war, but I think Truman and Johnson killed more civilians in Asia, with only the Japanese maybe topping that.

@MrInstag8tor [1465862400]
No offense athena but your full of shit. Iraq was destabilized before we went in. Bombing the oil fields isn't such a bad idea. The last oil refinery that the iraqi government tried to take back burned anyway because of isis. So even if we try to take these installations back with ground troops, alot will die. You would be stupid as fuck not to assume that isis has these places rigged with explosives and any chance of losing the installation would result in destroying the facilities anyway.

@putinscat1208 [1465862400]
Zeke aaron Dude, this isn't a school or a car park. These oil installations are complex, and bombing oil all over the place is nasty as hell. Why not just bomb the plutonium storage facility in Texas too if you like making messes. Maybe Donald wants to bomb Iraq so he can send people in to rebuild it. He learned that from Chaney.

@athenaredrising [1465862400]
Zeke aaron Are you serious? It was a dictatorship....but it was stabile. It wasn't chaotic...like it became after the war! The Invasion completely destroyed it instead of helping it! And second of all....you bomb their oil...how do you expect them to survive afterwards? This isn't somekind of game you play on xbox or ps....you are meddling with the lives of thousands of people. Making such rash and stupid decisions is what lead people to this terrible chaos in the first place!

@putinscat1208 [1465862400]
Athena SuperHeldin Yes. The US really needs to think hard about other Govt. structures. Democracy isn't always great.

Preferred structures:
Democracy
Monarchy
Socialism
Communism
Dictatorship
Chaos

In the cases of Iraq, Libya, and soon to be Syria, replacing a dictator with chaos hasn't worked so well.

@athenaredrising [1465862400]
Putins Cat Yeah you are right. I mean just 'cause the government doesn't like how a country is run....they shouldn't be allowed to invade it. If the only reason they invaded Iraq was to plant the seed of democracy.....why haven't they invaded NOrth Korea then? It is another dictatorship that oppresses its people and supposedly has wmds.

@MrInstag8tor [1465862400]
Athena SuperHeldin Yea it was stable all right. Innocent people getting killed everyday by the government. We would be meddling with the livelihood of those people, not their lives. They don't live in the oil refineries. After we rebuilt the refineries the people would be better off.

@putinscat1208 [1465862400]
Zeke aaron People die everyday. Some in this country from crazy shooters. You have to look at the big picture.. You can remove a dictator only to have the population die from unsanitary water. I highly suggest you watch the end of Lawrence of Arabia. It shows my point so much more artistically.

@MrInstag8tor [1465862400]
Putins Cat I get your point but beleive mine is more valid. You suggest letting isis keep cutting people's heads off, getting richer, expanding territory, destroying ancient cities. You sound like Obama. And I do beleive we should meddle in other counties affairs when it comes to genocides on their people but, countries with nukes are not to be fucked with. Why do you think Iran wants em so bad? Because if they get em they won't be fucked with anymore and can do what they want. That's exactly why we don't do anything about North korea

@putinscat1208 [1465862400]
Zeke aaron I said none of that. But I have no interest in bombing the oil infrastructure, because that will have little effect on ISIS. ISIS does have money, but it is not all coming from oil. You have to kill these clowns, not take their oil away.

@MrInstag8tor [1465862400]
Putins Cat Hurting their revenue would only be the first step.

@athenaredrising [1465862400]
Zeke aaron Innocent people die everyday in the states...or in Europe...or in Asia or in Africa....does that mean we need to go around invading ALL COUNTRIES?! Do you have any idea how much damage it would do to Iraq if we ALSO take away their oil? Oil is what the Middle East is known for....so basically we took away their stability...and then now we also take away their Oil? That is absurd!

@athenaredrising [1465862400]
Zeke aaron Finding out who is funding them would be the first step. Where do they get their food and water from? Syrians are dying of starvation....how is it that all Isis fighters are being fed? Where do they get their equipments from? Their ammunition...weapons? They also sell Oil and Human Organs on the black market....who is buying all those human organs and oil? Who is supporting them? THAT is what we need to find out.....and not just carelessly go around bombing different places...not caring how it would affect the people over there. Thats what Bush did back in 2003...look what that led to.

@oybekshodiev1 [1465862400]
Athena SuperHeldin I'm glad that there are Americans like you exist who know how to distinguish black and white! I wish more Americans think the way you do and finally get back a real government who could be concerned of their own citizens' lives than being bloodthirsty and go and kill someone who is thousands miles away and who is not proven to be the enemy to US. This guy is completely sick! If he becomes president, I'll lose hope for any possible humanity at least till the end of my life.

@putinscat1208 [1465862400]
Ibrahim Adham Time to move to Canada.

@putinscat1208 [1465862400]
Zeke aaron An expensive, messy, not thought out step. So, we bomb all the oil in Iraq to make ISIS feel bad. What about the people that actually own the oil that ISIS took? So, if criminals are in my home, the police should just blow my house up? Oh, btw, the criminals went out the backdoor before the bombs fell. Now, I don't have a house. Just seems really dumb. You only demolish really crappy buildings to make new ones, but we don't just demolish all of Detroit, no matter how bad it stinks. The clown is living in his own crazy world. He talks about how great he is at building things, but I guess that doesn't include Latin love..

@markuspettersen8961 [1465862400]
I honestly think that trump will get worse than bush.

@putinscat1208 [1465862400]
Mido XD We hate you too!

@Harvester35 [1465862400]
And you are another ignorant liberal that has no clear comprehension on what needs to be done and how to properly deal with a threat like Isis. Let alone that fact that we did not de stabalize the Iraqi governw, by the time we arrived it had already de stabilized that is why we were there was to support and attempt to re build their government.

Hey Athena, Trump voted against the invasion of Iraq, so that's not really Bush.

@putinscat1208 [1497398400]
nishuee How did Trump vote exactly?

@kronhertz4956 [1465862400]
You don't even need US troops to protect the oil fields. They are useless.

That's what PMC's are good for. Hire a professional mercenary and they will have the job done twice as fast & efficient as regular combatants.
Look at the case study of Executive Outcomes in Angola if you think I'm exaggerating. A force of 500 private military contractors manage to repel an attack of a thousand RUF commies.

@ImHeatless [1465862400]
As an Arab,i am all up for wiping Daesh out but do you really think you can bomb Iraq and set fire to the oil? I am almost 100% sure that no Arab/Non-Arab country will allow this.

Besides,even if we did bomb them,what about the hostages? Is Donald really willing to kill one innocent hoping to get rescued soon for the sake of wiping them out? Yeah it's best to lose one innocent now rather than lose 100+ later but it wouldn't be fair to that persons family.

@chicagoelectricbicyc [1465862400]
Heatless "No arab/non arab country will allow this"?? Donald would be the freakin President of the most powerful country on earth !!.. whos going to stop him ?? lol

@ImHeatless [1465862400]

Haha. Man I would love Bernie Vs. Trump. We will witness the most epic series of Presidential elections. Whatever side your own, both men answer their questions so candidly. Bernie with more merit behind him, but Trump with no political BS and -to an extent- humor.

It's a bit different...

@ImHeatless [1465862400]
cleo0399 Sharia law** (Just an FYI,not everyone wants it but it has it's pros and cons). I'm not from Saudi Arabia but i am their neighbor,so i'm not too sure about this BUT i'm 50% sure that they don't behead for no reason...It has to be something like killing,rape and etc.

Again i'm not too sure.

@danki2000daniel [1465862400]
Alex Penney how is it different?

@Alex-om1be [1465862400]
daniel harvey iv because Saudi Arabia isn't a terrorist organisation

@Alex-om1be [1465862400]
daniel harvey iv is France a terrorist organisation they used the guillotine.

@SuperElite27000000 [1465862400]
Alex Penney Nearly all the 9/11 hijackers were from SA.

@ImHeatless [1465862400]
SuperElite27000000 How are you so sure? It's an obvious inside job,how does a plane crash into a building and explode leave out two passports and the rest were burnt? It doesn't make sense.

@ImHeatless [1465862400]
***** Yeah ok 1,400 years ago! LOL! This is what i'm trying to tell everyone that dislikes Islam.You can dislike us but there is absolutely no need to hate us that much when at the very least 1 billion other Muslims haven't exactly done you any harm.

We all have opinions anyway,right?

@ImHeatless [1465862400]
***** Extremism is the problem,not Islam though.

Just a question,have you met an Arab or at least had a proper conversation with them? Besides myself of course :P

I also get where you're coming at because it is true that there are quite a lot of Muslim extremists and that really does suck but do you really think all Muslims want to behead non-Muslims? I've got much better things to do than to kill people lol.

@ImHeatless [1465862400]
***** Indeed.No matter how respectful my reply is,i'm still the bad guy lol.

@ImHeatless [1465862400]
***** Yeah i know :D Let me clarify what i meant.Since i like to read hear and hear news about what's going on i always see at least one comment that has every bit of info wrong so i tend to correct them..And when i do,no matter how right i am,i'm still wrong to that individual lol.

It's pretty rare having a conversation without name-calling and insults here and there and i really appreciate the mutual respect ^^

@ImHeatless [1465862400]
***** Yeah sorry,i fail to make sense when i'm tired ^^

@AnnBoylen [1465862400]
daniel harvey iv And we're allies with them but had it been an unstable country with no oil we'd have a UN Peacekeeping force invade it just for that fact.

@wagwan6ixsyde688 [1465862400]
Okay this is how beheading works in saudi arabia. Imagine sombody killed for e.g your mom and the person got caught. The family of the victim has a choice to forgive him and just send him to jail or to behead him. Its the families choice for e.g if they all say yes then he gets beheaded and if one person says no then he is forgiven. Im just letting people know.

@BlaineColemanxplorer59author [1465862400]
***** Not exactly- obviously, you haven't read the Qu'ran- I have and I'm not Muslim. If you want to read about real violence and hate of others, read the Old Testament

@BlaineColemanxplorer59author [1465862400]
***** No, it doesn't. The Old Testament, though- that's real violence.

@TheGhostKillerGames [1465862400]
But Saudi Arabia is sucking Obama's cock, that's why nobody attacks them

@danki2000daniel [1465862400]

@trialcritictester8874 [1465862400]
"That is not our fight". We are partly responsible for ISIS due to the Iraq war. Why does he think we are fighting there. The big reason, OIL. We have reduced the price of oil with help from Saudis to finish off Russia economically. In return, we have to help the Saudis fight ISIS. Quid pro quo.

@imruthie1 [1465862400]
He would scare the shit out of isis or anyone else who messed with the USA. Like Regan did he made them tear down the wall with intimidation. So you guys think ISIS should keep the money and the oil and the entire counyry then what ever country they want to attack next fools you are.

@KamikazeChinaman [1465862400]
+mommasaywhat Americans seem to care more about their taxes and the integrity of the oil fields than people's lives. But the US is already in Iraq. Bombing some fields wouldn't cost any more than what is being wasted staying in that damn country and policing the world. America could defeat ISIS quickly by cutting those leeches from the resources sustaining their war, but the administration doesn't care. They're betting on both horses and waiting to see who wins.

@24_Hour_Majima [1465862400]
Is this directed at all americans?

@chelleoj [1465862400]
Trump gives simple answers to complex problems. The reason ISIS is tough to fight is it isn't any nation's governing body- it is a group of individuals whose commonality is a set of extreme beliefs. Just proving one oil well is owned exclusively by an ISIS member would be a job. How many ISIS members even own oil wells?
Does Trump believe our allies would support his plan? Or are we leaving NATO?

@joys6818 [1465862400]
The reason isis is tough to fight is because our leader is funding them! Snap out of it.

@chelleoj [1465862400]
Savvy Savages
That was my point.

@0sumgamezzz435 [1465862400]
+chelleoj Your own answer about a group of individuals with extreme beliefs, disproves your theory as to Trump's simple answers to complex problems, do you actually believe that you can negotiate, reason, or discuss any issue with this group of brainwashed koraniacs. If you keep up with current events, you would know that ISIS borders are well marked, guarded, and known to all in the region, friend or foe. So, with those two facts in mind, and with Obama's statement that our policy is to destroy ISIL, what flaw do you detect in Trump's opening "simple" strategy to defeat this scourge? Cutting off the source of cashflow has to be priority one, and petroleum production is their only moneymaker. We know where every well is they possess. Despite what you believe. With this knowledge in hand, It is time to render each one of them inoperable. Here is another simple solution. No cash...No caliphate.

@agentorange4807 [1465862400]
aashish bansal It won't, he lives in a convoluted world. Bombing Iraq's national oil fields will completely decimate their economy and most likely strengthening ISIS support.

I think ISIS needs a targeted approach rather than just throwing bombs everywhere.

@TheEsteemedSirScrub [1465862400]
Barack Smith I suppose Trump is transparent at the very least. And what he says is what he genuinely thinks, but what he genuinely thinks is so fucking stupid it's almost hilarious and terrifying at the same time. We cannot let Trump become president, his complete and udder lack of diplomatic understanding for complex international relations will destroy the US's international reputation and make it even worse than it already is, and he might just send us to war again. He's dangerous, but he's dangerous in a different way to most politicians. While most politicians may have a political agenda, Trump is just an idiot. But he's an idiot that might just get enough power to throw us into a pointless war. Again.

@كذا-٥7ظ [1623628800]

@كذا-٥7ظ [1623628800]
quest 77051 also there is no more isis if he really wanted to help with terrorists for Iraqi and American interests now he would help us get Iran out and make a deal with the oil like they have been since 2003 America get oil for $2.50 a barrel which is basically free.

@KevinP32270 [1623628800]
it's the american government. not the people. i have no @كذا-٥7ظ control on what the government decides to do at that level. i can just agree or disagree with some of it. WHY ARE MY WORDS TYPING BACKWARDS WHEN I REPLY TO YOU? be well.

@KevinP32270 [1623628800]
IRAN WILL NEVER NEGOTIATE WITH TRUMP. trump @كذا-٥7ظ messed that up long ago. america don't get the oil free. the super rich get it free. the rest of us have to pay a high price for it. be well.

@كذا-٥7ظ [1623628800]
quest 77051 I never said it was the people I was just making a point and just fyi Iran now wants to negotiate but the terms are ridiculous America’s not gonna sit with the on those terms but in any case thanks for replying ♥

@joshuaolsen2218 [1465862400]
In the mean time prices at the gas pumps here in the US would skyrocket. After the oil fields are rebuilt, I would not be surprised if the high prices remain. Someone would be pocketing the difference at the expense of the little guys. As a person who drives a delivery vehicle, I would be one of those little guys. Don't get me wrong, I would love to have a President who has an aggressive standpoint on many areas (including terrorism). Bomb the hell out of ISIS! However, I would prefer if the collateral damage did not include my livelihood.

Then you try to give our children lead poisoning.

@Frederico222 [1465862400]
+Edenmoon You'd better read some papers first before you make these statements. Hillary Clinton has proven to be unreliable as hell. It would be the best for the rest of the world also if Trump would be elected as president. I do really hope it will happen.

@EliseoJacobo [1465862400]
J Arroyo No wei. No le estoy chupando a nadie. No estoy completamente de acuardo con el. No estoy por deportar todos los inducomentados. Pero aunque no estoy de acuerdo de su estancia de la immigracion, el es uno de los mejores candidatos para poner la economia donde deberia estar. El no nacio rico. El hizo todo sus 10 billiones el solo con trabajo duro. El entiende como sirve la economia y ademas nadie lo controla por que el esta fundando su propia campania.

@ProfessorLogics [1465862400]
*****
You act like he is a dictator. This guy is not getting voted into office to be a dictator. He has the whole Congress he needs to answer too. His background is so much different than a career politician's. He makes million dollar deals, he calculates risk and that is how he is wired. He isn't some muppet on a string.
I think it would be healthy to put him in office to break up the monotony of political bullsh*t this country has been through for the last 20 years.

@TiffTheTyrant [1465862400]
I totally agree with you!! Sure he's a narcissist, but the dude is zero bullshit. He says exactly what he thinks and I actually really like it. It's refreshing!
